NOTICE

All students are hereby informed that ECE department is going to organize a one week training session on *Power Management Integrated Circuits* course from 22/02/2022 to 27/02/2022. This course will help students to understand why power management circuits are needed in a VLSI system, what are the different components of a power management system with focus on voltage regulators.

Students are encouraged to attend the session as this course is important in VLSI industries. All interested students can contact Mr. Vipin Sharma for further details of the course.

RETROFITTING TECHNIQUE Course Contents:

- **Retrofitting**
- **Need of Retrofitting**
 - ✓ Structural cracks
 - ✓ Damage to structural members
 - ✓ Excessive loading
 - ✓ Errors in design or construction
 - ✓ Modification of the structural system
 - ✓ Seismic damage
 - ✓ Corrosion due to penetration-honeycombs
- **Methods of Retrofitting of Building**
 - ✓ Adding New Shear Wall
 - ✓ Adding Steel Bracing
 - ✓ Wall Thickening Technique
 - ✓ Base Isolation Technique
 - ✓ Mass Reduction Technique
 - ✓ Jacketing Method
 - ✓ Fiber Reinforced Polymer (FRP)
 - ✓ Epoxy Injection Method
 - ✓ External Plate Bonding
- **Factors affecting in selection of Retrofitting of Building**
- **Benefits of Retrofitting of Building**

**A
REPORT
ON
Certificate program “Drugs, drug use, drug policy and health”**

A drug policy is the policy regarding the control and regulation of psychoactive substances (commonly referred to as drugs), particularly those that are addictive or cause physical and mental dependence. While drug policies are generally implemented by governments, entities at all levels (from international organizations, national or local government, administrations, or private places) may have specific policies related to drugs. This program was organized by **Department of Pharmacy Meerut Institute of Technology** to enhance knowledge and skills of the healthcare professionals. The program consisted of eight modules delivered in eight days from February 05, 2022 to April 02, 2022 every Saturday.

Sixty students were registered for the program. Ms Pratibha, Assistant Professor, Department of Pharmacy Meerut Institute of Technology (DPMIT), Speaker for module 1 delivered lecture of the International drug control framework and its historical roots.

Mr. Rahul Kumar Assistant professor Department of Pharmacy Meerut Institute of Technology (DPMIT) Speaker for module 2 delivered lecture of measuring the effectiveness of different drug policies talking about some points like drug addiction is a complex and widespread health issue in India and across the world. However, despite increasing crackdowns on drug cartels in India by law enforcement agencies, drug use and cases reported under the Narcotic Drugs and Psychotropic Substances (NDPS) Act, 1985 are on the rise. The National Crime Records Bureau (NCRB) reported nearly 60,000 cases under the NDPS Act in 2020 – marking a two-fold increase in the last decade alone.

Ms. Sultana Zakiya, Assistant Professor, Department of Pharmacy Meerut Institute of Technology (DPMIT) Speaker for module 3 delivered lecture of Drug use and abuse worldwide: Epidemiology of drug use talking about drug use disorders carry a lifetime prevalence of about 10% in the general American population, representing more than 23 million adults who are

struggling with problematic drug use. Nearly one-third of Americans adults will meet criteria for alcohol use disorder at some time in their lives, and there are high rates of other co-occurring substance use disorders.

Dr. Vipin Kumar Garg, Professor and head of Department, Department of Pharmaceutical Technology, Meerut Institute of Engineering & Technology, Speaker for module 4 delivered lecture of Health issues related to drug use and questioning prohibition-based policies talking about "*Drug Policy Makes Using Drugs More Dangerous*". When drugs are illegal, the government cannot enact standards of quality, purity or potency. Consequently, street drugs are often contaminated or extremely potent, causing disease and sometimes death to those who use them.

Ms. Sultana Zakiya, Assistant Professor, Department of Pharmacy Meerut Institute of Technology (DPMIT) Speaker for module 5 delivered lecture on Prohibition-based policies: its effectiveness and consequences talking about the prohibition of drugs through sumptuary legislation or religious law is a common means of attempting to prevent the recreational use of certain intoxicating substances.

While some drugs are illegal to possess, many governments regulate the manufacture, distribution, marketing, sale, and use of certain drugs, for instance through a prescription system. For example, amphetamines may be legal to possess if a doctor has prescribed them; otherwise, possession or sale of the drug is typically a criminal offense. Only certain drugs are banned with a "blanket prohibition" against all possession or use (e.g., LSD). The most widely banned substances include psychoactive drugs, although blanket prohibition also extends to some steroids and other drugs.

Ms Pratibha, Assistant Professor, Department of Pharmacy Meerut Institute of Technology (DPMIT), Speaker for module 6 delivered lecture of approaches to drug regulations: prevention, harm reduction, and treatment talking about briefly the recent special issue on harm reduction illustrate, the last decade has seen an impressive expansion of harm reduction in public health. Policies and programs using it have dramatically improved the formerly ignored health problems of marginalized populations.

Ms Pratibha, Assistant Professor, Department of Pharmacy Meerut Institute of Technology (DPMIT), Speaker for module 7 delivered lecture of Cases for drug policies and reforms talking

about the current overdose crisis in Canada is the worst public health crisis that this country has faced since the Spanish Flu in 1918. Since 2016, over 20,000 people have died by accidental overdose in Canada. The majority of those deaths have been from toxic drugs mixed with fentanyl, a powerful synthetic opioid and its analogues; and sadly, the majority of lives lost were people in the prime of their lives: between 20 and 49 years of age this age.

Dr. Vipin Kumar Garg, Professor and head of Department, Department of Pharmaceutical Technology, Meerut Institute of Engineering & Technology, Speaker for module 8 delivered lecture of Questioning prohibition-based policies.

On day 8th i.e. 02 April, 2022, Dr. Neeraj Kant Sharma, Principal, DPMIT delivered vote of thanks to all the speakers for their valuable talks about the uses of drugs, policies and health consequences. He expressed his gratitude towards Prof. Vipin Kumar Garg for special lectures of his expertise.

On the day a feedback about the course was obtained from all the students and certificates were distributed to participants who successfully completed the program.

Certificate program on “Quality Control of Herbal Drugs”

The use of herbal medicine in therapeutics is on the rise in both developed and developing countries. India can emerge as the major country and play the lead role in production of standardized, therapeutically effective herbal formulation. Researcher needs to explore the medicinally important plants. This can be achieved only if the herbal drugs are evaluated and analyzed. Keeping this in mind, **Department of Pharmacy Meerut Institute of Technology** conducted a **certificate program on “Quality Control of Herbal Drugs”** for the students from **25-30 October, 2021**.

Fifty Four students registered for the program. **Mr. Abhinit Chaudhary, Assistant Professor, Sunder Deep Pharmacy College**, speaker for day 1 & 2 delivered lectures on introduction of Quality control of drugs and role to the students.

Dr. Rajkumar Tiwari , Associate Professor, Department of Pharmacy University of Petroleum & Energy Studies, speaker for day 3 & 4 has taught and performed HP-TLC analytical technique for the herbal botanical formulation quality control.

Ms. Manjari Verma, Assistant Professor, Department of Pharmacy, Meerut Institute of Technology, speaker for day 5 & 6 has taught Supercritical fluid chromatography (SFC) as a tool for quality control of herbs.

The program conducted successfully and certificates distributed to the students.
