**NOTICE**

Date: 05 -December-2022

All the students of B.Com and B.Com (H) are hereby informed that college is organizing a 5 days' certificate course named "Fundamentals of Microsoft Excel" as per following details:

**First Batch** : 12 Dec to 16 Dec 2022  
**Title of workshop** : Fundamentals of Microsoft Excel  
**Timings** : 10:00 am to 4:00 pm  
**Trainer** : Mr. Rocky Sachan, Assistant Professor, MBA, MIET, Meerut.  
**Coverage** : **Day 1:** Introduction to Microsoft Excel  
(How to add, subtract, multiply, divide in excel)

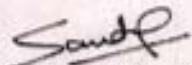

**Day 2:** Basic Knowledge of clipboard, fonts, alignment, Cells  
(Insert, delete and format)

**Day 3:** Adding- pictures, shapes, tables, Column, line, pie charts,

**Day 4:** Header and footer, page, symbols, background etc.

**Day 5:** Page Break, Themes, Page Background, Size.

Interested students can submit their names to workshop in charge Mr. Asim Rizvi till 10 - December 2022

**Meerut Institute of Technology (Professional Courses), Meerut 1110**

**Department of Business Administration & Commerce**

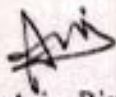

17-Dec, 2022

Concluding Remarks

Department of Business Administration and commerce has organized a certificate course named "Fundamentals of Microsoft Excel" from (12 Dec to 16 Dec 2022) for the students of B.Com & B.Com (H) 1 year. Mr. Rocky Sachan told students about the basic features of MS Excel and its utility with some basic mathematical functions, alignment, insert pictures, shapes, table, charts, header, footer, symbols, page break & sheet sizing for printing. The basic objective of this course was to enable students handy & familiar with MS excel so that they can fit in the contemporary business environment.

The workshop ended with the distribution of certificates to all the participants by the Principal. Students were glad and promised to practice all these learning.

Thanks

Mr. Asim Rizvi

## AREPORTON

### CERTIFICATE PROGRAM "DRUGS, DRUG USE, DRUG POLICY AND HEALTH"

A drug policy is the policy regarding the control and regulation of psychoactive substances, particularly those that are addictive or cause physical and mental dependence. While drug policies are generally implemented by government, entities all level may have specific policies related to drugs. This program was organized by Department of Pharmacy MIT to enhance knowledge and skills of the healthcare professionals. The program consisted of eight modules delivered in the eight days from March 04, 2023 to April 22, 2023 every Saturday.

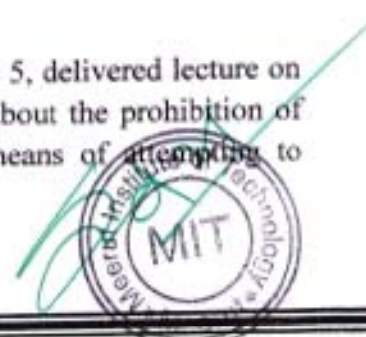

Fifty-nine students were registered for the program. Ms. Prachi Sengar, Assistant professor, Department of Pharmacy DPMIT, speaker for module 1 delivered lecture of the international drug control framework and its historical roots.

Dr. Quaisul Hoda, Professor, Department of Pharmacy DPMIT speaker of module 2 delivered lecture of measuring the effectiveness of different drug policies talking about some points like drug addiction is a complex and widespread health issue in India and across the world. However despite increasing crackdowns on drug cartels in India by law enforcement agencies, drug use and cases reported under the narcotics and Psychotropic substance (NDPS) act, 1985 are on the rise. The national crime records bureau (NCRB) reported nearly 60,000 cases under the NDPS act in 2020- making a two-fold increase in the last decade alone.

Dr. Vipin Kumar Garg, Professor and Head of Department of Pharmaceutical Technology, Meerut Institute of Engineering and Technology, speaker for module 3, delivered lecture of drug use and abuse worldwide: epidemiology of drug use talking about drug use disorders carry a lifetime prevalence of about 10% in the general American population, representing more than 23 million adults who are struggling with problematic drug use. Nearly one third of Americans adults will meet criteria for alcohol use disorders at some time in their lives, and there are high rates of other co-occurring substance use disorders.

Dr. Alok Sharma, Professor, Department of Pharmacognosy, Meerut Institute of Engineering and Technology, speaker for module 4 delivered lecture of health issues related to drug use and questioning prohibition-based policies talking about "drug policy makes using drugs more dangerous". When drugs are illegal, the government cannot enact standards of quality, purity or potency. Consequently, street drugs are often contaminated or extremely potent, causing disease and sometime death to those who use them.

Dr. Quaisul Hoda, Professor, Department of Pharmacy speaker of module 5, delivered lecture on prohibition-based policies: its effectiveness and consequences talking about the prohibition of drugs through sumptuary legislation or religious law is a common means of attempting to prevent the recreation use of certain intoxicating substances.

While some drugs are illegal to possess, many governments regulate the manufacture, distribution, marketing, sale and use of certain drugs, for instance through a prescription system. For example, amphetamines may be legal to possess if a doctor has prescribed them; otherwise, possession or sale of the drug is typically a criminal offense. Only certain drugs are banned with a "blanket prohibition" against all possession or use (e.g., LSD). The most widely banned substance includes psychoactive drugs, although blanket prohibition also extends to some steroids and other drugs.

Dr. Vipin Kumar Garg, speaker for module 6, delivered lecture of approaches to drug regulation: prevention, harm reduction, and treatment talking about briefly the recent special issue on harm reduction illustrate, the last decade has seen an impressive expansion of harm reduction in public health. Policies and program using it have dramatically improved the formerly ignored health problems of marginalized populations.

Ms. Prachi Sengar, Assistant Professor, Department of Pharmacy MIT, speaker for module 7, delivered lecture of cases for drug policies and reforms talking about the current overdose crisis in Canada is the worst public health crisis that this country has faced since the Spanish Flu in 1918. Since 2016, over 20,000 people have died by accidental overdose in Canada. The majority of those deaths have been from toxic drugs mixed with fentanyl, a powerful synthetic opioid and its analogues and sadly the majority of lives lost were people in the prime of their lives: between 20 and 49 years of age this age.

Dr. Alok Sharma, Professor, Department of Pharmacognosy, Meerut Institute of Engineering and Technology (MIET), speaker for module 8 delivered lecture of questioning prohibition-based policies.

On day 8<sup>th</sup>, Dr. Neeraj Kant Sharma, Principal, DPMIT delivered vote of thanks to all the speakers for their valuable talks about the uses of drugs, policies and health consequences. He expressed his gratitude towards Prof. Vipin Kumar Garg and Dr. Alok Sharma for special lectures of his expertise.

On the day a feedback about the course was obtained from all the students and certificates were distributed to participants who successfully completed the program.

**A REPORT ON**  
**CERTIFICATE PROGRAM ON "QUALITY CONTROL OF HERBAL DRUGS"**

**Date of Program: April 11-15, 2023**

**Venue of Program: Seminar Hall, DPMIT**

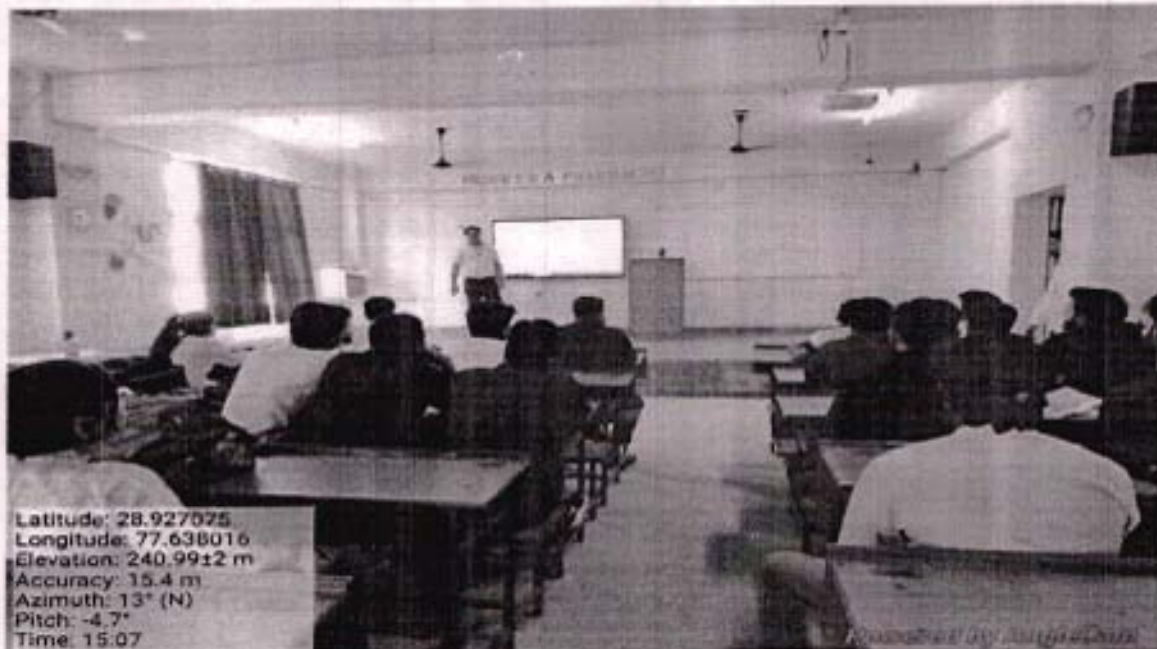

Herbal medicines are used throughout developed and developing countries as home remedies, over-the-counter drug products and raw materials for the pharmaceutical industry, and represent a substantial proportion of the global drug market. India can emerge as the major country and play the lead role in production of standardized, therapeutically effective herbal formulation. Researcher needs to explore the medicinally important plants. This can be achieved only if the herbal drugs are evaluated and analyzed. Keeping this in mind, **Department of Pharmacy Meerut Institute of Technology** conducted a certificate program on "Quality Control of Herbal Drugs" for the students from April 11-15, 2023.

Thirty five (35) students registered for the program. **Dr. Nitin Kumar, Professor, Department of Pharmacy, Meerut Institute of Technology**, speaker for day 1 & 2, delivered lectures on introduction of Quality control of drugs and role to the students. He taught about the measure areas of the quality control and their importance. Then he thoroughly speaks about the various methods used for quality control and brief various qualitative as well as quantitative instruments such as potentiometer, colorimeter, spectrophotometer, fluorimeter, flame photometer, etc. how the determinate and indeterminate errors should be detected.

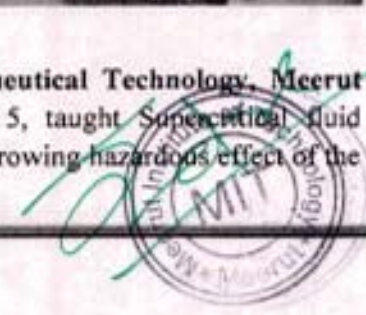

**Dr. Alimuddin Saifi, Professor, Department of Pharmaceutical Technology, Meerut Institute of Engineering and Technology**, speaker for day 3, delivered lectures on standardization of herbal drugs Adulteration, substitution, and lack of skilled personnel are the main reasons for unavailability of genuine herbal drugs. By use of advanced quality control technique and suitable standards, there is need to assure the quality of the medicinal herbal products. Identification, quality, and purity of herbs and herbal product confirmation are done by the means of standardization.

**Ms. Khushi Goel, Assistant Professor, Department of Pharmacy, Meerut Institute of technology**, speaker for day 4 has taught and performed HP-TLC analytical technique for the herbal botanical formulation quality control. With the growing advances in science, HPTLC is becoming one of the prime options for the quality control of the herbal plants. HPTLC technique is used simultaneously in comparison with both reference and samples and can work as quality control tool apart from identification. To establish the pharmacopeial standards of various herbal ayurvedic, Siddha as well as other medicinal herb formulations by the means of HPTLC fingerprinting profile as a major quality control aspect.

**Ms. Garima Aggarwal, Professor, Department of Pharmaceutical Technology, Meerut Institute of Engineering and Technology, speaker for day 5, taught Supercritical fluid chromatography (SFC) as a tool for quality control of herbs. The growing hazardous effect of the**

synthetic chemicals and organic solvents on the environment has developed need for the focus towards the green chemistry principles with increase in number of methods and processes which comply with the same. SFC method is an eco-friendly method as it utilizes very less quantity of organic solvents and the low viscosity of mobile phase as the pressure drop is less when compared with liquid chromatographic techniques.

The program conducted successfully and certificates distributed to the students.

**A REPORT OF  
CERTIFICATE PROGRAM ON  
"MEDICATION YOU NEED TO KNOW"**

Sometimes it seems like there are more medicines than there are diseases, and it can be hard to keep them straight. Some can be bought over the counter at pharmacies or other stores. Others required a doctor's prescriptions. Some are available only in hospitals. Medications are vital tools in modern healthcare, contributing to disease management, prevention, and improved health outcomes for individuals worldwide. This course covers the most common medical conditions and often provided medications.

The program was organized by Department of pharmacy, Meerut Institute of Technology to enhance medications knowledge and skills of the students of the institute. Fourty seven students registered for the programme. **Mr. Ankit Gupta , Associate Professor, Department of Pharmacy, Meerut Institute of Technology**, Speaker of Day 1, delivered lectures on basis concept of Depression (Types, symptoms, causes), GERD (symptoms, causes, and diagnosis), and thyroid disorders (its overview, types, symptoms, causes and treatment).

**Ms. Simran, Assistant Professor, Department of Pharmacy, Meerut Institute of Technology** on day 2, delivered lectures on basis concept of Hypertension (overview its symptoms, prevention and control ) Blood Pressure (overview, and its range) Diabetes (Types, causes, symptoms), Cholesterol (types, symptoms and causes) OTC, Cough, Cold, Allergy (Allergic reactions, types and treatment) and about their conditions and common medications.

**Mrs. Kavita Sharma, Assistant Professor, Department of Pharmacy, Meerut Institute of Technology** on day 3, delivered lectures on Antibiotics (Types, resistance and classifications), ADHD - (Conditions overview and common medications). Immunizations and acute sickness- conditions overview and common medications.

**Ms. Prachi, Assistant Professor, Department of Pharmacy, Meerut Institute of Technology** on day 4, Asthma, COPD, Gout (conditions

overview and medications). BPH, ED, Sleep disorders and bone health (conditions overview and common medications)

**Ms. Nazmeen Fatima, Assistant Professor, Department of Pharmacy, Meerut Institute of Technology** on day 5 Birth control, Incontinence(conditions and overview and medications) and Anticoagulation (overview and common medications).

**Mr. Ankit Gupta, Associate Professor, Department of Pharmacy, Meerut Institute of Technology** on day 6 Arrhythmia (conditions overview and common medications) and Dementia (conditions overview and common medications).

On the day 6, **Dr. Neeraj Kant Sharma, Principal, Department of Pharmacy, Meerut Institute of Technology** expressed thanks to all the speakers for their time and efforts to conduct the program successfully. A feedback about the program was obtained from all the participants on the day. The certificates were distributed to the students and successfully fulfilled the attendance criteria for the program.

**A REPORT OF  
ADD ON PROGRAM ON "PHARMACEUTICAL REGULATORY AFFAIRS"**

**Date(s): 10/09/2022 to 03/12/2022 (Every Saturday)**

**Venue: Seminar hall, DPMIT**

Pharmaceutical regulatory affairs involve ensuring compliance with government regulations throughout the drug development process. This includes navigating approval pathways, maintaining quality standards, and adhering to labelling and marketing requirements. Professionals in this field play a critical role in ensuring the safety and efficacy of pharmaceutical products. The program was organized by Department of Pharmacy, Meerut Institute of Technology to enhance knowledge and skills of the healthcare professional. The program consisted of eleven modules delivered in eleven days from September 10, 2022 to December 03, 2022 i.e. every Saturday.

Total forty four (44) students were registered for the program. **Dr. Amrendra Pratap Yadav, Professor, Department of Pharmacy, Meerut Institute of Technology**, speaker for module 1, delivered lecture of overview, role, importance, challenges, and opportunities of global regulatory authorities for pharma and healthcare industries.

**Dr. Hasan Ali, Associate Professor, Department of Pharmacy, Meerut Institute of Technology**, speaker for module 2, delivered lecture of drug development process, clinical trial and related norms and regulations and also talking about the phases and importance of clinical trial for the new drug development process.

**Dr. Abhishek Kumar**, speaker for module 3 delivered lecture of Good Manufacture Practices (International perspective of USA, WHO, ICH, and Europe / Australia and New Zealand/ Gulf countries (GCC)/ Canada/ Africa/ India etc.

**Dr. Shalini Sharma**, speaker for module 4 delivered lecture of Documentation of drug trials and regulatory filings in India and talking about the approval from the Drugs Controller General, India, Permission from particular Ethics Committee where the clinical study is designed, role of registration on the ICMR.

**Dr. Rajesh Aggarwal, General Manager, Research and Development, Modi-Mundipharma**, speaker for module 5 delivered lecture of Quality Assurance and talking

about all stages of a product's development: production, testing, packaging, and delivery. In contrast, quality control (QC) is a narrower process. QC focuses on detecting mistakes, errors, or missed requirements in a product.

**Dr. Shalini Sharma**, speaker for module 6 delivered lecture of drug regulation and talking about challenges, authorities and regulatory guidelines for new drug development.

**Dr. Hasan Ali**, Associate Professor, Department of Pharmacy, Meerut Institute of Technology, speaker for module 7 delivered lecture of Council for Harmonization of Technical Requirements for Pharmaceuticals for Human use and talking about scientific and technical aspects of pharmaceuticals and develop ICH guidelines.

**Dr. Amrendra Pratap Yadav**, Professor, Department of Pharmacy, Meerut Institute of Technology, speaker for module 8 delivered lecture of World Health Organization guidelines and talking about how to follow these guidelines and importance of the guidelines.

**Dr. Rajesh Aggarwal**, General Manager, Research and Development, Modi-Mundi pharma, speaker for module 9 delivered lecture of Healthcare Industry Intellectual Property Rights and talking about Drug Pricing and Patent Battles, AI and Diagnostics, Global Collaboration vs. National Interests.

**Dr. Abhishek Kumar**, speaker for module 10 delivered lecture of Patents and talking about the types of patent, how to apply the patent, procedure of patent grant permission, Importance of patents in pharmacy.

**Dr. Shalini Sharma**, speaker for module 11 delivered lecture of Copyrights and Trademarks and talking about Copyright protects original creations like literary works, music, art, and films and Trademarks protect identifiers used in commerce, such as brand names, logos, slogans, and product designs.

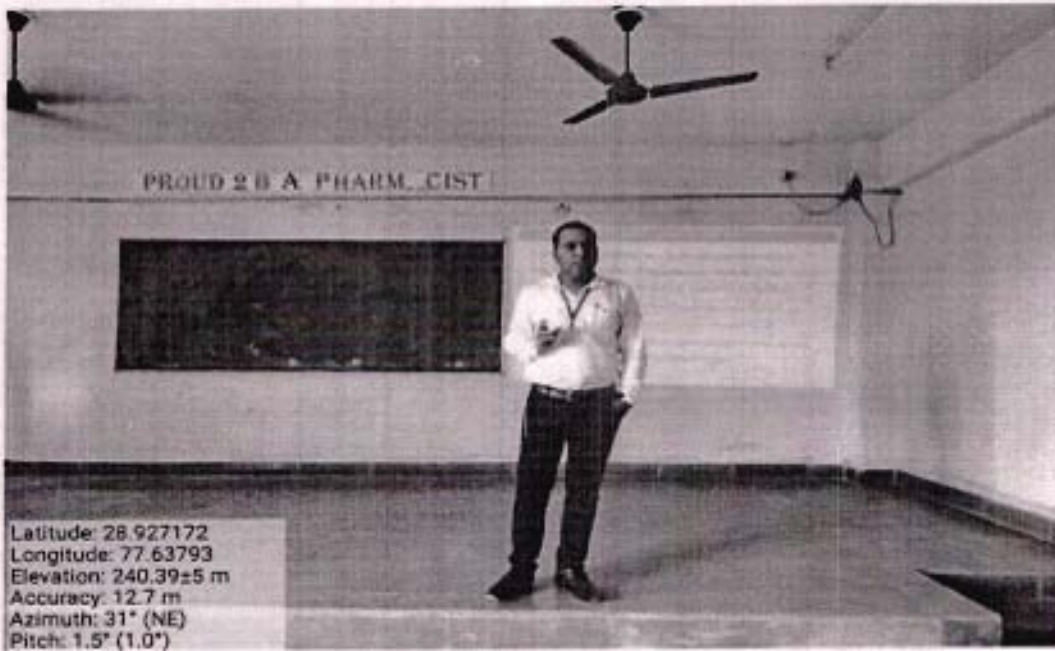

On day 11<sup>th</sup>, Dr. Neeraj Kant Sharma, Principal, DPMIT delivered vote of thanks to all the speakers for their valuable talks about the pharmaceutical regulatory affairs. He expressed his gratitude towards Dr. Rajesh Aggarwal, Dr. Abhishek Kumar and Dr. Shalini Sharma for special lectures of their expertise.

On the day of conclusion of the program, a feedback about the course was obtained from all the students and certificates were distributed to participants who successfully completed the program.

## "C++" Course Contents

### 1. Programming basics and overview

- Computer programming background
- C++ overview
- First C++ application
- Basic C++ syntax
- Using our IDE
- Basic Input and Output
- Variables

### 2. Flow control

- If statements
- And, Or
- Switch
- Loops – While, Do, For

### 3. More basic concepts

- Working with pointers
- Memory management
- Arrays
- Strings
- Handling Exceptions
- Basic debugging skills

### 4. OOP basics and details

### 5. Files & Network basics

- Design Basis
- 3D Model
- Layout Development
- Plot Plan
- Pump Piping
- Pipe rack Piping
- Underground Piping
- Nozzle Orientations
- Isometrics

### 4. Piping Stress Analysis

- Basics of Stress Analysis
- Inputs Required
- Stress Critical line list
- Thickness Calculation
- Flange leakage checking
- GRE Piping
- FRP Piping
- PSV Piping
- Model Analysis

## CNC Machine Course Content

1. **Introduction to CNC technology and its applications:**
  - Basics of machining and metal cutting principles
  - Overview of CNC machines and their components
  - Understanding CNC machine tool axes and coordinate systems
  - CNC programming fundamentals.
2. **CNC Code:**
  - G-code and M-code basics
  - CNC part programming using G-codes and M-codes
  - CNC program structure and syntax
3. **Simulation and Verification**
  - CNC program simulation and verification
  - Reading and interpreting engineering drawings and blueprints
  - Tooling selection and setup for CNC machining operations
  - Workpiece setup and fixturing techniques
4. **CNC machine operation and control:**
  - Machine startup and shutdown procedures
  - Tool loading and workpiece clamping
  - Setting work offsets and tool offsets
  - Running and monitoring CNC machining processes
  - Toolpath generation and optimization using CAM (Computer-Aided Manufacturing) software
5. **Introduction to different types of CNC machining operations:**
  - Turning (lathe operations)
  - Milling (vertical and horizontal machining centers)
  - Drilling, tapping, and reaming
6. **Advanced CNC programming concepts:**
  - Subprograms and macro programming
  - Parametric programming
  - Toolpath optimization for efficiency and quality
7. **Troubleshooting common CNC machining problems:**
  - Tool wear and breakage
  - Dimensional inaccuracies
  - Surface finish issues
8. **Maintenance and upkeep of CNC machines:**
  - Routine maintenance tasks
  - Lubrication and coolant management

## ANSYS CLASS CONTENTS

### 1. Static Structural Analysis

- (a) Analysis of Static Structural
- (b) Geometry
- (c) Material Properties
- (d) Analysis Settings
- (e) Loads and Supports
- (f) Solving the Model
- (g) Results and Post processing

### 2. Vibration Analysis

- (a) Basic of free vibration
- (b) Geometry
- (c) Solution Setup
- (d) Modal Analysis (Natural Frequency)

### 3. Computational Fluid Dynamics (CFD)

- (a) Analysis of Computational Fluid Dynamics Problems
- (b) Geometry
- (c) Meshing
- (d) Boundary Conditions
- (e) Solving the Model
- (f) Results and Post processing

### 4. Fluid Structure Interaction (FSI)

*Secondary*

### 5. CFD Result Analysis on Tecplot 360

Meerut Institute of Technology (Professional Courses), Meerut 1110  
Department of Computer Application (BCA)

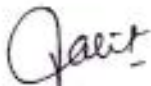

6-March-2023

Concluding Remarks

Department of Computer Application has organized a training program named Amazon Web Services (AWS) from 27 Feb 2023 to 03 March 2023 for Second year students (Batch 2021-24). Ms. Sonam Tomar, the trainer, imparted the training to the students about the Basics of Cloud Computing & its requirement in the work place. The students learned how to work with Storage, Computing and Database. The Principal and the trainer awarded the certificate to each participant for the successful completion of their rigorous training.

Students were glad and promised to practice all these learning.

Thanks

Mr. Lalit Kumar

(HOD - BCA)

## Contents

### Certification Program on “Revit Architecture”

#### Day 1-2: Introduction to Revit

- **Session 1 (Day 1):**
  - Overview of Building Information Modeling (BIM)
  - Introduction to Revit interface and navigation
  - Understanding the Revit workspace: ribbons, panels, and views
- **Session 2 (Day 2):**
  - Creating a new project in Revit
  - Basic drawing and editing tools
  - Understanding Revit's parametric modeling approach

#### Day 3-4: Building Elements

- **Session 3 (Day 3):**
  - Working with basic building elements: walls, doors, and windows
  - Placing and modifying walls
  - Adding and customizing doors and windows
- **Session 4 (Day 4):**
  - Creating floors and roofs
  - Understanding floor and roof properties
  - Introduction to the Revit family editor for creating custom elements

#### Day 5-6: Views and Annotation

- **Session 5 (Day 5):**
  - Working with views: floor plans, elevations, and sections
  - Creating and managing different views
  - Introduction to 3D views and navigation
- **Session 6 (Day 6):**
  - Adding annotations: dimensions, text, and tags
  - Creating schedules for elements
  - Managing visibility and graphic display options

#### Day 7-8: Advanced Modeling Techniques

- **Session 7 (Day 7):**
  - Creating complex geometry with Revit's modeling tools
  - Using reference planes and constraints
  - Introduction to Revit's massing environment
- **Session 8 (Day 8):**
  - Exploring advanced modeling techniques: curtain walls, stairs, and railings
  - Customizing and refining complex elements
  - Understanding the implications of model integrity and performance

#### Day 9-10: Construction Documentation

- **Session 9 (Day 9):**
  - Introduction to construction documentation in Revit
  - Setting up sheets and title blocks
  - Placing views onto sheets and organizing documentation
- **Session 10 (Day 10):**
  - Detailing and annotating construction documents

# MEERUT INSTITUTE OF TECHNOLOGY

(Approved by AICTE & Affiliated to U.P. Technical University, Lucknow)  
NH-58, Baral Partapur, Bypass Road, Meerut - 250 103, U.P., INDIA

- Adding dimensions, notes, and symbols
- Generating and exporting drawing sets for construction

## Day 11-12: Collaboration and Coordination

- **Session 11 (Day 11):**
  - Introduction to Revit's collaboration features
  - Understanding worksharing and team collaboration
  - Coordinating models with linked files and references
- **Session 12 (Day 12):**
  - Reviewing and resolving conflicts with clash detection
  - Exporting and importing Revit files to/from other formats
  - Overview of BIM coordination tools and workflows

## Day 13-14: Rendering and Visualization

- **Session 13 (Day 13):**
  - Introduction to rendering in Revit
  - Applying materials and textures
  - Setting up lighting and rendering settings
- **Session 14 (Day 14):**
  - Rendering a project scene
  - Post-processing and enhancing rendered images
  - Exporting renderings for presentations and marketing materials

## RETROFITTING TECHNIQUE Course Contents:

### Retrofitting

#### Need of Retrofitting

- ✓ Structural cracks
- ✓ Damage to structural members
- ✓ Excessive loading
- ✓ Errors in design or construction
- ✓ Modification of the structural system
- ✓ Seismic damage
- ✓ Corrosion due to penetration-honeycombs

#### Methods of Retrofitting of Building

- ✓ Adding New Shear Wall
- ✓ Adding Steel Bracing
- ✓ Wall Thickening Technique
- ✓ Base Isolation Technique
- ✓ Mass Reduction Technique
- ✓ Jacketing Method
- ✓ Fiber Reinforced Polymer (FRP)
- ✓ Epoxy Injection Method
- ✓ External Plate Bonding

#### Factors affecting in selection of Retrofitting of Building

#### Benefits of Retrofitting of Building

## "C++" Course Contents

### 1. Programming basics and overview

Computer programming background

C++ overview

First C++ application

Basic C++ syntax

Using our IDE

Basic Input and Output

Variables

### 2. Flow control

If statements

And, Or

Switch

Loops – While, Do, For

### 3. More basic concepts

- Working with pointers
- Memory management
- Arrays
- Strings
- Handling Exceptions
- Basic debugging skills

### 4. OOP basics and details

### 5. Files & Network basics

**DEPARTMENT OF ELECTRONICS AND COMMUNICATION**  
**ENGINEERING**

**NOTICE**

This notice informs all students that the department of Electronics and Communication Engineering will host a five-day **VLSI Design** training session from August 21 to August 25, 2023.

This course considers the fundamentals of comprehensive knowledge of VLSI circuits and systems which is essential for electronics chip manufacturing industry. The programmed emphasizes the key aspects of hardware design and development for VLSI applications. Students can benefit much from VLSI design since it is crucial to the creation of high-performance, low-power, and affordable integrated circuits.

For further information about the course, all interested students can get in touch with Mr. Ashish Tripathi, assistant professor of ECE.

MEERUT INSTITUTE OF TECHNOLOGY, MEERUT  
DEPARTMENT OF ELECTRONICS AND COMMUNICATION  
ENGINEERING

NOTICE

This notice informs all students that the department of Electronics and Communication Engineering will host a five-day **Digital Image Processing** training session from March 13 to March 17, 2023.

This course considers the fundamentals of Digital image processing deals with processing of images which are digital in nature. Study of the subject is motivated by applications. The application is in improvement of pictorial information for human perception i.e. enhancing the quality of the image so that the image will have a better look. Students must attend the session because it will cover the fundamentals and practical uses of image processing design.

For further information about the course, all interested students can get in touch with Dr. Nikhilesh Mishra, assistant professor of ECE.

**NOTICE**

This notice informs all students that the department of Electronics and Communication Engineering will host a five-day **Optical Networking** training session from February 06 to February 10, 2023.

This course covers the fundamentals of the optical network evolution, from the point-to-point link to the intelligent transport introduction of the main elements and components of the all-optical networking.

Due to the importance of this subject in the optical networking industry, students are recommended to attend. For further information about the course, all interested students can get in touch with Dr. Nikhilesh Mishra, assistant professor of ECE.

HOD Agriculture**

## **MEERUT INSTITUTE OF TECHNOLOGY (PC)**

### **HUMAN VALUES & PROFESSIONAL ETHICS**

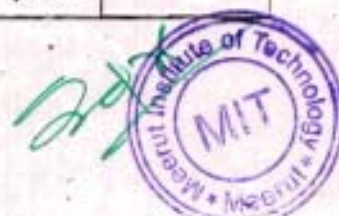

#### **OBJECTIVES OF THE COURSE:**

- To give basic insights and inputs to the student to inculcate Human values to grow as a responsible human beings with proper personality.
- To study the moral issues and decisions confronting individuals and organizations engaged in engineering profession.
- Professional Ethics instills the student to maintain ethical conduct and discharge their professional duties.

## Certification Programme on HUMAN VALUES & PROFESSIONAL ETHICS

<b>Course Introduction</b>		
<b>Day 1</b>	<b>21/3/22</b>	<b>Lecture hrs</b>
Need, basic Guidelines, Content and Process for Value Education		1
Understanding the need, basic guidelines, content and process for Value Education.		1
Self Exploration, 'Natural Acceptance' and Experiential Validation - as the mechanism for self-exploration.		1
Continuous Happiness and Prosperity. Happiness & Excitement. Right understanding, Relationship and Physical Facilities.		1
Relationship and Physical Facilities - the basic requirements for fulfillment of aspirations of every human being with their correct priority		1
Method to fulfill the above human aspirations: understanding and living in harmony at various levels.		1
<b>Day 2</b>	<b>22/3/22</b>	
Understanding Harmony in the Human Being - Harmony in Myself : Understanding human being as a co-existence of the sentient 'T' and the material 'Body'.		2
Understanding the needs of Self ('T') and 'Body' - Sukh and Suvidha.		1
Understanding the Body as an instrument of 'T' (I being the doer, seer and enjoyer).		1
Understanding the harmony of me with the Body: Sanyam and Swasthya; correct appraisal of Physical needs, meaning of Prosperity in detail. Programs to ensure Sanyam and Swasthya.		1
<b>Day 3</b>	<b>23/3/22</b>	

Understanding harmony in the Family the basic unit of human interaction. Understanding values in human	1
Understanding values in human - human relationship; meaning of Justice and program for its fulfillment to ensure mutual fulfillment;	1
Trust (Vishwas) and Respect (Samman) as the foundational values of relationship.	2
Understanding the meaning of Vishwas; Difference between intention and competence. -	1
<b>Day 4</b>	<b>24/3/22</b>
Difference between respect and differentiation; the other salient values in relationship.	1
Understanding the harmony in the society (society being an extension of family): Samadhan, Samridhi, Abhay, Sah-astiva as comprehensive Human Goals.	2
Visualizing a universal harmonious order in society - Undivided Society (Akhand Samaj), Universal Order (Sarvabhaum Vyawastha) - from family to world family!	2
<b>Day 5</b>	<b>25/3/22</b>
Whole existence as Coexistence: Understanding the harmony in the Nature.	1
Interconnectedness and mutual fulfillment among the four orders of nature - recyclability and self-regulation in nature.	1
Understanding Existence as Co-existence (Sah-astiva) of mutually interacting units in all-pervasive space.	1
Holistic perception of harmony at all levels of existence.	1
<b>Day 6</b>	<b>26/3/22</b>
Understanding of Harmony on Professional Ethics:	1
Natural acceptance of human values, Definitiveness of Ethical Human Conduct: In terms of Value, Character & Policy	1
Competence in professional ethics: a. Ability to utilize the professional competence for augmenting universal human order, b. Ability to identify the scope and characteristics of people-friendly and eco-friendly production systems, c. Ability to identify and develop appropriate technologies and management patterns for above production systems.	2
Case studies of typical holistic technologies, management models and production systems	1

18-July, 2022

Concluding Remarks

Department of Business Administration and commerce has organized a certificate course named "Microsoft Word: Basic & Advanced" in two batches i.e. 27-June to 1 July, 2022 & 11-15 July, 2022 for the students of BBA & B.Com I year. Mr. Komal Sharma, the trainer told the students about the basics of MS Word, working with documents header & footer, basic text editing, style paragraph formatting, working with pictures, usage to table, mail merge, proofing, printing of document & recording of macros. The basic objective of this course was to enable students handy & familiar with MS Word so that they can fit in the contemporary business environment.

The program ended with the distribution of certificates to all the participants by the Principal.

27-Sep., 2021

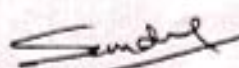

**Concluding Remarks**

Department of Business Administration and commerce has organized a certificate course named Human Values & Professional Ethics 20<sup>th</sup> September to 25<sup>th</sup> September, 2021 for the students of BBA & B.Com I year. Dr. Hema Negi, the trainer told the students about the need of value education, harmony in self, family, society and nature; apart from these students learned to develop their emotional, social and professional competence.

Students were happy it seems that they have found a new perspective to see the world with reference to relationship, thoughts, behavior, work and realization.

Thanks

**Meerut Institute of Technology (Professional Courses), Meerut 1110**

**Department of Computer Application (BCA)**

22-Dec-2021

Concluding Remarks

Department of Computer Application has organized a training program named **Amazon Web Services (AWS)** from 27 Sept 2021 to 20 Dec 2021 for the students of BCA (Batch 2019-22). Ms. Sonam Tomar, the trainer, imparted the training to the students about the Basics of Cloud Computing & its requirement in the work place. The students learned how to work with Storage, Computing and Database. The Principal and the trainer awarded the certificate to each participant for the successful completion of their rigorous training.

Students were glad and promised to practice all these learning.

Thanks

Mr. Lalit Kumar

**NOTICE**

All students are hereby informed that ECE department is going to organize a one week training session on *Power Management Integrated Circuits* course from 22/02/2022 to 27/02/2022. This course will help students to understand why power management circuits are needed in a VLSI system, what are the different components of a power management system with focus on voltage regulators.

Students are encouraged to attend the session as this course is important in VLSI industries. All interested students can contact Mr. Vipin Sharma for further details of the course.

## "C++" Course Contents

### 1. Programming basics and overview

- > Computer programming background
- > C++ overview
- > First C++ application
- > Basic C++ syntax
- > Using our IDE
- > Basic Input and Output
- > Variables

### 2. Flow control

- > If statements
- > And, Or
- > Switch
- > Loops – While, Do, For

### 3. More basic concepts

- > Working with pointers
- > Memory management
- > Arrays
- > Strings
- > Handling Exceptions
- > Basic debugging skills

### 4. OOP basics and details

### 5. Files & Network basics

## PIPING ENGINEERING COURSE CONTENTS

### 1. Basics of Piping Engineering

### 2. Piping Materials & Testing

### 3. Piping Layouts

- Interaction with Process Department
- Design Basis
- 3D Model
- Layout Development
- Plot Plan
- Pump Piping
- Pipe rack Piping
- Underground Piping
- Nozzle Orientations
- Isometrics

### 4. Piping Stress Analysis

- Basics of Stress Analysis
- Inputs Required
- Stress Critical line list
- Thickness Calculation
- Flange leakage checking
- GRE Piping
- FRP Piping
- PSV Piping
- Model Analysis

## "C++" Course Contents

### 1. Programming basics and overview

- Computer programming background
- C++ overview
- First C++ application
- Basic C++ syntax
- Using our IDE
- Basic Input and Output
- Variables

### 2. Flow control

- If statements
- And, Or
- Switch
- Loops – While, Do, For

### 3. More basic concepts

- Working with pointers
- Memory management
- Arrays
- Strings
- Handling Exceptions
- Basic debugging skills

### 4. OOP basics and details

### 5. Files & Network basics

## COURSE CONTENTS

- Building Information Modeling Foundation
- Financial and Asset Management
- Research Project
- Building Information Modeling and Sustainability Practice
- Contemporary Issues and Research in Project Management
- Contract Management Practice and Law
- Integrated Project – Construction
- Organizational Theory and Behaviour
- Project and System Management

## RETROFITTING TECHNIQUE Course Contents:

- **Retrofitting**
- **Need of Retrofitting**
  - ✓ Structural cracks
  - ✓ Damage to structural members
  - ✓ Excessive loading
  - ✓ Errors in design or construction
  - ✓ Modification of the structural system
  - ✓ Seismic damage
  - ✓ Corrosion due to penetration-honeycombs
- **Methods of Retrofitting of Building**
  - ✓ Adding New Shear Wall
  - ✓ Adding Steel Bracing
  - ✓ Wall Thickening Technique
  - ✓ Base Isolation Technique
  - ✓ Mass Reduction Technique
  - ✓ Jacketing Method
  - ✓ Fiber Reinforced Polymer (FRP)
  - ✓ Epoxy Injection Method
  - ✓ External Plate Bonding
- **Factors affecting in selection of Retrofitting of Building**
- **Benefits of Retrofitting of Building**

*Approved*

Approved by All India Council for Technical Education (AICTE), & Pharmacy Council of India (PCI), New Delhi  
and Affiliated to Dr. APJ Abdul Kalam Technical University & Board of Technical Education, Uttar Pradesh

Date: 27/01/2022

**NOTICE**

All the students of D. Pharm First Year are hereby informed that a certificate programme on "Drugs, Drug use, Drug policies and Health" is going to be organized in Department of Pharmacy from February 05, 2022 to April 02, 2022, every Saturday.

The schedule of program is attached here.

Those who are willing to register themselves under this program may contact to Ms. Pratibha, Asst. Professor (Contact: 9368837462)

Certificate will be provided to only those participants who secure at least 90% attendance.

Regards,

A  
REPORT  
ON

**Certificate program "Drugs, drug use, drug policy and health"**

A drug policy is the policy regarding the control and regulation of psychoactive substances (commonly referred to as drugs), particularly those that are addictive or cause physical and mental dependence. While drug policies are generally implemented by governments, entities at all levels (from international organizations, national or local government, administrations, or private places) may have specific policies related to drugs. This program was organized by **Department of Pharmacy Meerut Institute of Technology** to enhance knowledge and skills of the healthcare professionals. The program consisted of eight modules delivered in eight days from February 05, 2022 to April 02, 2022 every Saturday.

Sixty students were registered for the program. Ms Pratibha, Assistant Professor, Department of Pharmacy Meerut Institute of Technology (DPMIT), Speaker for module 1 delivered lecture of the International drug control framework and its historical roots.

Mr. Rahul Kumar Assistant professor Department of Pharmacy Meerut Institute of Technology (DPMIT) Speaker for module 2 delivered lecture of measuring the effectiveness of different drug policies talking about some points like drug addiction is a complex and widespread health issue in India and across the world. However, despite increasing crackdowns on drug cartels in India by law enforcement agencies, drug use and cases reported under the Narcotic Drugs and Psychotropic Substances (NDPS) Act, 1985 are on the rise. The National Crime Records Bureau (NCRB) reported nearly 60,000 cases under the NDPS Act in 2020 – marking a two-fold increase in the last decade alone.

Ms. Sultana Zakiya, Assistant Professor, Department of Pharmacy Meerut Institute of Technology (DPMIT) Speaker for module 3 delivered lecture of Drug use and abuse worldwide: Epidemiology of drug use talking about drug use disorders carry a lifetime prevalence of about 10% in the general American population, representing more than 23 million adults who are

struggling with problematic drug use. Nearly one-third of Americans adults will meet criteria for alcohol use disorder at some time in their lives, and there are high rates of other co-occurring substance use disorders.

Dr. Vipin Kumar Garg, Professor and head of Department, Department of Pharmaceutical Technology, Meerut Institute of Engineering & Technology, Speaker for module 4 delivered lecture of Health issues related to drug use and questioning prohibition-based policies talking about "*Drug Policy Makes Using Drugs More Dangerous*". When drugs are illegal, the government cannot enact standards of quality, purity or potency. Consequently, street drugs are often contaminated or extremely potent, causing disease and sometimes death to those who use them.

Ms. Sultana Zakiya, Assistant Professor, Department of Pharmacy Meerut Institute of Technology (DPMIT) Speaker for module 5 delivered lecture on Prohibition-based policies: its effectiveness and consequences talking about the prohibition of drugs through sumptuary legislation or religious law is a common means of attempting to prevent the recreational use of certain intoxicating substances.

While some drugs are illegal to possess, many governments regulate the manufacture, distribution, marketing, sale, and use of certain drugs, for instance through a prescription system. For example, amphetamines may be legal to possess if a doctor has prescribed them; otherwise, possession or sale of the drug is typically a criminal offense. Only certain drugs are banned with a "blanket prohibition" against all possession or use (e.g., LSD). The most widely banned substances include psychoactive drugs, although blanket prohibition also extends to some steroids and other drugs.

Ms Pratibha, Assistant Professor, Department of Pharmacy Meerut Institute of Technology (DPMIT), Speaker for module 6 delivered lecture of approaches to drug regulations: prevention, harm reduction, and treatment talking about briefly the recent special issue on harm reduction illustrate, the last decade has seen an impressive expansion of harm reduction in public health. Policies and programs using it have dramatically improved the formerly ignored health problems of marginalized populations.

Ms Pratibha, Assistant Professor, Department of Pharmacy Meerut Institute of Technology (DPMIT), Speaker for module 7 delivered lecture of Cases for drug policies and reforms talking

about the current overdose crisis in Canada is the worst public health crisis that this country has faced since the Spanish Flu in 1918. Since 2016, over 20,000 people have died by accidental overdose in Canada. The majority of those deaths have been from toxic drugs mixed with fentanyl, a powerful synthetic opioid and its analogues; and sadly, the majority of lives lost were people in the prime of their lives: between 20 and 49 years of age this age.

Dr. Vipin Kumar Garg, Professor and head of Department, Department of Pharmaceutical Technology, Meerut Institute of Engineering & Technology, Speaker for module 8 delivered lecture of Questioning prohibition-based policies.

On day 8<sup>th</sup> i.e. 02 April, 2022, Dr. Neeraj Kant Sharma, Principal, DPMIT delivered vote of thanks to all the speakers for their valuable talks about the uses of drugs, policies and health consequences. He expressed his gratitude towards Prof. Vipin Kumar Garg for special lectures of his expertise.

On the day a feedback about the course was obtained from all the students and certificates were distributed to participants who successfully completed the program.

**A  
REPORT  
ON**

**Certificate program on “Medication you need to know”**

Learning drugs is one of the most intimidating, overwhelming, and challenging parts of working in the healthcare profession. This course explores the most common illnesses and the most widely prescribed medications. The program was organized by **Department of Pharmacy, Meerut Institute of Technology** to enhance Medication knowledge and skills of the students of the institute, from **November 6, 2021 to December 18, 2021, every Saturday.**

Forty students registered for the programme. Mr. Avnesh Kumar, Associate Professor, Department of Pharmaceutical Technology, MIET Speaker of Day 1, delivered lectures on basic concept of Blood Pressure (chart and numbers, normal range, systolic, diastolic) Diabetes (types, causes, symptoms), Cholesterol (types, symptoms and causes) OTC, Cough, cold, Allergy (allergic reactions, types and treatment) and about their conditions and common medications.

On day 2, Mr. Rahul Kumar, Assistant Professor, Department of Pharmacy, Meerut Institute of Technology, delivered lecture on Depression (common types, symptoms causes) thyroid (causes, symptoms, risk factors, testing and treatment) GERD (Symptoms , causes, diagnosis) Pain ( types and causes) .

Mr. V. D. Ashwlayan, Professor, Department of Pharmaceutical Technology, MIET speaker for Day 3 and Day 6 delivered lectures on Antibiotics (types,

resistance, and classification) ADHD (symptoms, causes, types, and test for ADD)  
Immunization (types, schedules) acute sickness, Arrhythmia (causes, symptoms,  
precautions, treatment) and Dementia (symptoms, types and diagnosis)

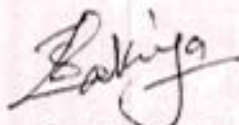

Glimpses of the program

Ms. Pratibha, Assistant Professor, Department of Pharmacy, MIT, speaker for Day 4 delivered lectures on Asthma (types, causes, symptoms, diagnosis) COPD (stages, causes and treatment) Gout (causes, symptoms, treatment, prevention) Benign Prostatic Hyperplasia (symptoms, diagnosis and treatment), Erectile Dysfunction (causes, diagnosis and treatment), Sleep disorder (common types, symptoms, treatment) and their common medications .

Mrs. Zakiya Sultana, Assistant Professor, Department of Pharmacy, MIT, speaker for Day 5 delivered lectures on Birth control (methods, options and types) and Anti coagulation (uses, types, side effects).

On day 6, Dr. Neeraj Kant Sharma delivered vote of thanks to all the speakers for their time and efforts to conduct the program successfully. A feedback about the program was obtained from all the participants on the day. The certificates were distributed to the students who successfully fulfilled the attendance criteria for the program

**Certificate program on "Quality Control of Herbal Drugs"**

The use of herbal medicine in therapeutics is on the rise in both developed and developing countries. India can emerge as the major country and play the lead role in production of standardized, therapeutically effective herbal formulation. Researcher needs to explore the medicinally important plants. This can be achieved only if the herbal drugs are evaluated and analyzed. Keeping this in mind, Department of Pharmacy Meerut Institute of Technology conducted a certificate program on "Quality Control of Herbal Drugs" for the students from 25-30 October, 2021.

Fifty Four students registered for the program. Mr. Abhinit Chaudhary, Assistant Professor, Sunder Deep Pharmacy College, speaker for day 1 & 2 delivered lectures on introduction of Quality control of drugs and role to the students.

Dr. Rajkumar Tiwari, Associate Professor, Department of Pharmacy University of Petroleum & Energy Studies, speaker for day 3 & 4 has taught and performed HP-TLC analytical technique for the herbal botanical formulation quality control.

Ms. Manjari Verma, Assistant Professor, Department of Pharmacy, Meerut Institute of Technology, speaker for day 5 & 6 has taught Supercritical fluid chromatography (SFC) as a tool for quality control of herbs.

The program conducted successfully and certificates distributed to the students.

## Salesforce Training Program for B.Tech Third Year Students

The report outlines the proposed Salesforce training program for B.Tech Third Year students. The training program aims to provide students with a comprehensive understanding of Salesforce and prepare them for Salesforce certification exams. The program will run for a duration of 40 hours, with weekly sessions of 4 hours each, from September to November. The content will cover a wide range of Salesforce functionalities, platform features, and best practices to ensure a well-rounded understanding of Salesforce technology.

### TRAINING PROGRAM OBJECTIVES

The main objectives of the Salesforce training program for B.Tech Third Year students are as follows:

- a) Introduce students to Salesforce and its significance in the CRM domain.
- b) Develop a fundamental understanding of Salesforce platform and its key components.
- c) Explore various Salesforce functionalities and their use cases.
- d) Provide hands-on experience with Salesforce tools and features.
- e) Prepare students for Salesforce certification exams.
- f) Enhance students' career prospects in the field of CRM and Salesforce administration.

### TRAINING PROGRAM DETAILS

The Salesforce training program will be conducted over a period of three months, with weekly sessions of 4 hours each. The following is a breakdown of the content covered during the training:

#### Week 1: Introduction to Salesforce

Overview of Salesforce and its significance in customer relationship management (CRM).

Introduction to the Salesforce platform and its core components.

Salesforce editions and user interface navigation.

Understanding Salesforce data model and data management.

#### Week 2: Salesforce Sales Cloud

Introduction to Salesforce Sales Cloud and its features.

Managing leads, accounts, contacts, and opportunities.

Sales process automation using workflows, approvals, and process builder.

Reporting and dashboard creation for sales analytics.

### **Week 3-4: Salesforce Service Cloud**

Introduction to Salesforce Service Cloud and its features.

Case management and support processes.

Service level agreements (SLAs) and entitlements.

Knowledge base management and self-service portals.

### **Week 5: Salesforce Marketing Cloud**

Overview of Salesforce Marketing Cloud and its capabilities.

Email marketing campaigns and automation.

Journey builder and customer journey mapping.

Personalization and segmentation in marketing campaigns.

### **Week 6-7: Salesforce Community Cloud**

Introduction to Salesforce Community Cloud and its use cases.

Creating and managing online communities.

Collaboration and engagement features.

Customizing community branding and user experience.

### **Week 8-9: Salesforce Platform and App Development**

Introduction to Salesforce App Cloud and Lightning Platform.

Building custom objects, fields, and relationships.

Developing custom Lightning components and applications.

Apex programming language and triggers.

### **Week 10: Salesforce Integration and Data Migration**

Salesforce integration with external systems using APIs.

Data import and export techniques.

Data transformation and cleansing.

Integration best practices and security considerations.

## **Week 11-12: Salesforce Administration and Security**

User and profile management in Salesforce.

Role hierarchy and sharing rules.

Salesforce data security and access controls.

Salesforce backup and restore strategies.

### **SALESFORCE CERTIFICATION**

The Salesforce training program will prepare students for various Salesforce certification exams, enabling them to validate their skills and enhance their career opportunities. The following certifications are relevant to the content covered in the training program:

- 1) **Salesforce Certified Administrator:** This certification validates an individual's knowledge and skills in managing and configuring Salesforce applications, user interface customization, and security settings.
- 2) **Salesforce Certified Sales Cloud Consultant:** This certification focuses on expertise in designing and implementing Sales Cloud solutions, including lead management, opportunity management, and sales process automation.
- 3) **Salesforce Certified Service Cloud Consultant:** This certification validates skills in designing and implementing Service Cloud solutions, including case management, knowledge base, and service level agreements.
- 4) **Salesforce Certified Marketing Cloud Consultant:** This certification validates skills in implementing and managing marketing automation solutions using Salesforce Marketing Cloud.
- 5) **Salesforce Certified Platform App Builder:** This certification validates skills in designing, building, and deploying custom applications on the Salesforce Lightning Platform.

## CONCLUSION

The Salesforce training program for B. Tech Third Year students offered a comprehensive curriculum covering various Salesforce functionalities, platform features, and best practices. After completing this training, students will gain practical skills and knowledge required for working with Salesforce and have the opportunity to pursue relevant Salesforce certifications.

This training program will significantly enhance their career prospects in the field of CRM and Salesforce administration, equipping them with the necessary expertise to excel in the Salesforce ecosystem.

## AWS Training Program for B. Tech Third Year Students

The report outlines the AWS training program for B. Tech Third Year students. The training program aimed to provide students with a comprehensive understanding of Amazon Web Services (AWS) and prepare them for AWS certification exams. The program will run for a duration of 40 hours, with weekly sessions of 4 hours each, from September to November, 2022. The content will cover a wide range of AWS services, architecture, and best practices to ensure a well-rounded understanding of cloud computing and AWS technology.

### Training Program Objectives:

The main objectives of the AWS training program for B. Tech Third Year students are as follows:

- Introduce students to cloud computing and AWS services.
- Develop a fundamental understanding of AWS architecture and infrastructure.
- Explore various AWS services and their use cases.
- Provide hands-on experience with AWS tools and services.
- Prepare students for AWS certification exams.
- Enhance students' career prospects in the field of cloud computing.

The following is a breakdown of the content covered during the training:

**Week 1-2: Introduction to AWS**

- Introduction to cloud computing and its benefits.
- Overview of AWS and its core services.
- AWS global infrastructure and data centers.
- Introduction to AWS Management Console and AWS CLI.

**Week 3-4: AWS Compute Services**

- Amazon Elastic Compute Cloud (EC2) and EC2 instances.
- Auto Scaling and Load Balancing.
- Serverless computing with AWS Lambda.
- AWS Elastic Beanstalk.

**Week 5-6: AWS Storage Services**

- Amazon Simple Storage Service (S3) and Glacier.
- Amazon Elastic File System (EFS).
- AWS Storage Gateway.
- Data backup and disaster recovery on AWS.

**Week 7-8: AWS Networking and Content Delivery**

- Amazon Virtual Private Cloud (VPC).
- AWS Direct Connect and VPN.
- Amazon CloudFront for content delivery.
- AWS Route 53 for DNS management.

**Week 9-10: AWS Database Services**

- Amazon Relational Database Service (RDS).
- Amazon DynamoDB NoSQL database.
- Amazon Redshift for data warehousing.
- Database migration to AWS.

### **Week 11-12: AWS Security and Monitoring**

- Identity and Access Management (IAM).
- AWS CloudTrail and CloudWatch.
- AWS Config and AWS Trusted Advisor.
- Security best practices on AWS.

### **Week 13-14: AWS Deployment and Management Services**

- AWS CloudFormation for infrastructure as code.
- AWS Elastic Beanstalk for application deployment.
- AWS OpsWorks for configuration management.
- AWS Systems Manager for operational insights.

### **Week 15-16: AWS Advanced Topics**

- Big data and analytics with AWS.
- Machine learning on AWS.
- Internet of Things (IoT) on AWS.
- DevOps practices and tools on AWS.

### **AWS Certifications Summary**

The AWS training program will prepare students for various AWS certification exams, enabling them to validate their skills and enhance their career opportunities. The following certifications are relevant to the content covered in the training program:

- **AWS Certified Cloud Practitioner:** This entry-level certification validates an individual's understanding of AWS services, architectural best practices, and basic security and compliance aspects.
- **AWS Certified Solutions Architect – Associate:** This certification focuses on designing and deploying scalable and highly available systems on AWS. It covers various AWS services and architectural patterns.

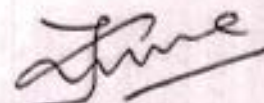

- **AWS Certified Developer – Associate:** This certification validates the skills required for developing, deploying, and debugging cloud-based applications using AWS services and tools.
- **AWS Certified SysOps Administrator – Associate:** This certification focuses on system operations and administration tasks on AWS, including deployment, management, and troubleshooting.
- **AWS Certified DevOps Engineer – Professional:** This advanced certification validates expertise in implementing and managing DevOps practices and tools on the AWS platform.

**Conclusion:** The AWS training program for B. Tech Third Year students offered a comprehensive curriculum covering various AWS services, architectures, and best practices. By completing this training, students will gain practical skills and knowledge required for working with AWS and have the opportunity to pursue relevant AWS certifications.

A total of 57 students from B.TECH Third Year Batch (2019-2023) attended the training. This training program will significantly enhance their career prospects in the field of cloud computing and prepare them for real-world challenges in the cloud industry.
