Session: 2023-24

The mentoring system in the institutes supports students through advice and counseling, as well as reinforcement and constructive role modeling. By doing so, mentoring goes beyond mere teaching, contributing significantly to both the educational and personal development of the mentee.

Responsibilities:

- 1) Identify slow learners and provide targeted support to motivate and assist them in their academic progress.
- 2) Encourage advanced learners to achieve their full potential by helping them.
- 3) Ensure mentees have access to essential resources and support.
- 4) Enhance students' academic performance, attendance, and motivation to learn.
- 5) Regular interaction with their parents to inform them about the performance of their ward.

Session: 2023-24

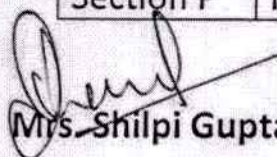

The mentoring system in the institutes supports students through advice and counseling, as well as reinforcement and constructive role modeling. By doing so, mentoring goes beyond mere teaching, contributing significantly to both the educational and personal development of the mentee.

Responsibilities:

- 1) Identify slow learners and provide targeted support to motivate and assist them in their academic progress.
- 2) Encourage advanced learners to achieve their full potential by helping them.
- 3) Ensure mentees have access to essential resources and support.
- 4) Enhance students' academic performance, attendance, and motivation to learn.
- 5) Regular interaction with their parents to inform them about the performance of their ward.
