2020-21	**2019-20**	**2018-19**
0	0	0

Online Education

1. Does all programs/courses were completed on time.	Yes
2. Measures taken to complete the syllabus of courses and programs.	Due to the COVID-19 pandemic, the teaching-learning methodology has seen significant changes and faculties and institutes have adopted online live learning methodology to deliver their course content. Online learning can be classified into two different categories, one through pre-recorded lectures and the other through live interactive sessions. In which through online class tools and technology such as Google Suite Zoom Meeting, students now have the facility to record and broadcast live lectures at the same time. To enable the online classes to run smoothly, tu high bandwidth internet connection has been kept. However, online learning is a combination of audio-video and visual presentations through pre-prepared PPT and digital boards. There are many teaching and learning aids available which are adopted by the faculty and institutions to deliver the lectures in the best possible manner. Traditional black/green board-chalk teaching-learning supported by overhead projector (OHP), audio-video lectures, PPT presentations, 3D or 2D graphical video and animated lectures are available. During this pandemic period, our faculty members have delivered their lectures through Google Classrooms and also made their recorded lectures available to their respective students through the same platform. The same platform is also used for sharing and evaluating assignments, class tests and exams. However, at the same time, students and faculty members faced many challenges due to lack of resources and experience at the elementary level. But, now most of the students and faculty members of various departments are well versed with the available technology and now they feel very comfortable to deliver and attend lectures through online mode. One of the best aspects of online learning is that students can access the recorded lectures from any place at any time. This online audio-video lecture also promotes self-paced learning among students. It is also observed that various renowned and multinational companies prefer to recruit through well trained and pre placement evaluation agencies. Generally, these companies use self-assessment and competitive coding portals to shortlist and recruit candidates. In addition, there are many portals and agencies available to provide various online facilities to the students and faculty members such as self-assessment, certification on latest technology and competitive coding. The Institute encourages its students, staff and faculty to actively participate in such online self-assessment, certification and competitive coding programes. Many of our students, faculty and staff members benefit through these self-paced learning modules.
3. The period of delay in completion of syllabus (in months).	0
4. The period of delay in conducting exams (in months).	0

Portal Name	No. of students offered online courses which have credit transferred to transcript	Total no. of online courses which have credit transferred to the transcript	Total no. of credits transferred to transcript
Swayam	374	0	0

5. No. of courses developed and available online on Swayam platform by your institution faculty	0	

Financial Resources: Utilised Amount for the Capital expenditure for previous 3 years
